

W10IB3S-PCH2LB, 10.1-inch S Series HMI

Enhanced User Experience with PCAP Touch and All-Around LED Status Light Bar

The S Series HMI - W10IB3S-PCH2LB is a 10.1-inch panel PC designed specifically as an interface for smart access control. What makes the series stand out include the features of the PoE function, which allows the transfer of data and electrical power simultaneously resulting in a reduction of installation costs and power consumption, as well as the integrated RFID technology that limits the access only to specific personnel. Ease of cleaning has also been taken into consideration and resulted in the series being built with a true flat surface for easy cleaning and avoiding clogged dust on the edges while delivering superior readability. Experience ultimate access control with all-around programmable LED status light bar for a diverse range of applications including access control systems, conference room management platforms, interactive POS/ kiosk terminals, and many more smart facility control scenarios.

Highlights

- 10.1" 1280 x 800 Resolution with Projected Capacitive Multi-Touch (PCAP)
- Intel® Celeron® Bay Trail-M N2930, 1.83 GHz
- Fanless cooling system and ultra-low power consumption
- Supports PoE function
- All-around LED status light bar
- Optional HF RFID Reader
- Stylish design for room booking, access control and room information applications
